ONLY A VERY FEW MEN FULLY UNDERSTAND the true object of Life Insurance. The "gist" of it all is, to insure your life for a given period as an investment, by paying insignificant amounts for 10, 12 or 20 years, and receiving about double the amount and it is wiser.

TTTTRUSTS .- There would be fewer dissatisfied heirs and fewer contested wills and other legal squabbles if the numer-T ous advantages of naming a Trust Com-pany to act as executor, administrator, guar-dian, &c., were more generally known and appreciated.

The individual may die, may become an in-

valid or may act improperly or injudiciously, while in a Trust Company such as the Ameri-can Security and Trust Company you secure the continuous service and the benefit of the practical experience of able financiers, who have every opportunity to enhance the value of such trusts by judicious management.
Wills naming the company as executor are

THE GARBAGE SERVICE.

Information in Regard to It in Other Cities
Obtained by the Health Officer. Deputy Health Officer Bayly has prepared tabulated statement of the garbage service in various cities to present to the meeting tomorrow afternoon, when the health officer and himself will confer with a committee of the

board of trade about the specifications for the coming five years' contract. The information obtained from the different cities, said the deputy health officer to a STAR reporter today, will not amount to much so far as the work in this city is concerned, because in most cities the appropriation covers

the street cleaning and removal of ashes.

"After figuring the cost per capita for removing garbage," said Mr. Bayly, "I have come to the conclusion that the cost of the removal of garbage from this city will be between \$38,000 and \$60,000, and in three or four

tween \$38,000 and \$60.000 and in three or four years from now it will in all probability cost more than now, for then the garbage may have to be removed from some of the suburban villages. Two applications have already been received from Takoma."

Speaking of the figures from other cities, Mr. Bayly said that the hauling was so different that the closest estimate might not be near the actual cost. In some cities, he said, the buildings were near the river and the kaul was short, while here the buildings were going up far from the water front and the haul was consequently longer. That, he said, makes a great difference in the cost. Appearances—People judge very justly from appearances, and to the general public nothing is so good an evidence of success as dressing weil. Dress is now and always has been a sign of prosperity. Good dressers appreciate those \$25 Black in the cost.
The tabulated statement mentioned shows

The tabulated statement mentioned shows how the garbage is removed and the price paid therefor and also gives the population and other information. Thus far nearly three dozen cities have been heard from. Toledo, Ohio, with a population of 82,652, pays \$10,000 for the removal of the garbage, while New York, with a population of 1,710,715, pays \$1,279,647 for the street cleaning, removal of garbage and sahes

Denver, Col., pays \$35,000 for the removal of the garbage and has fourteen wagons in the service. In Denver some time ago the Merz system was in peration. That is the destruction of the garbage by chemicals, but the matter was taken into court and the decision of the court stopped that mode of destroying the garbage, probably on the ground that it was unhealthy.

REPUBLICAN EXECUTIVE COMMITTEE. lossip Over the Fact That Chairman Clark-

There was considerable gossip started among the politicians today by the announcement that Gen. Clarkson dined with the President last evening. While there has been no rupture between Mr. Harrison and Mr. Clarkson it has been understood for some time that they were not on the most cordial terms, and it was said that when Gen. Clarkson took the place of Mr. Quay as chairman of the national executive committee it would be run in practical antagonism to Mr. Harrison. Politicians say, however, that it has been apparent of late that Mr. Harrison has overcome the antagonism of Gen. Clarkson as well as that entertained by some other

son as well as that entertained by some other prominent leaders.

It is not supposed that the menu was the most important thing discussed at table, and the fact of Gen. Clarkson being entertained at the White House is accepted as an indication that they are patching up their differences and coming to an understanding for the future of the party.

Senator Quay is in the city, and arrangements are being made for the meeting of the republican national committee in this city about the 26th of this month. Though Mr. Quay is no longer a member of the committee, he undoubtedly still has much to say about its affairs. affairs.

NEWS FROM CHINA. No Apprehension as to Its Character Felt at the State Department.

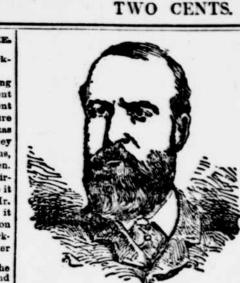

The officials of the State and Navy Departments are eagerly awaiting the arrival of the China mail, which is now on its way across the continent. The mail steamer reached San Francisco about three or four days ago and the dispatches received from our diplomatic and naval agents abroad were forwarded at once from San Francisco. The state of things in China is sufficiently interesting to make the dispatches very important at this time, but it is not thought that there is anything startling to be noted in them, as all State Department mail from

Lyman E. Knapp, the governor of Alaska, in is annual report to the Secretary of the Interior devotes considerable space to an account of the seal islands and the seal industry. He refers to the patrolling of Bering sea by American and British armed vessels under the agreement between the two countries of June 15, 1891, and of the seizure of poachers. During the year the skins seized and declared forfeited by the court were sold in San Francisco. The market value has greatly increased, the governor says, since the excitement over the Bering sea matter, owing largely probably to the smallness of the catch last year and increase in rates by the terms of the new lease of the seal islands. At one sale 2,468 skins were sold for \$24,256. The number of seals killed each of the years between 1871 and 1891 are given. The largest catches were during the years 1879, 1880 and 1881, when 100,000 were taken. Since that time up to 1890 the catches have averaged about 85,000 yearly. In 1890 there were only

so and 1881, when 100,000 were taken. Since that time up to 1890 the cathes have averaged as about \$5,000 yearly. SHOCK TO POLITICAL CIRCLES

DEATH OF PARNELL. Political Circles in England Shocked by the

Unexpected Announcement. London, Oct. 7.—Great Britain and Ireland were startled this morning by the utterly unlooked-for announcement that Chas. Stewart Parnell, the noted Irish leader, died suddenly last evening at his home in Brighton.

Thin very sorry. He has done great good in the past and I regret his death very much. All the rights and privileges which the tenants of Ireland enjoy today have been gotten through the efforts of Parnell. In my judgment it becomes all lovers of the Irish cause and liberty to look on the good deeds of his life and It has been well known that Mr. Parnell has

not enjoyed the best of health for years past, and it has been noticed and widely commented upon that since the O'Shea divorce developments became a matter of public notoriety, and since political trouble came upon him, the great Irish member of parliament had grown thinner and that he had perceptibly aged in appearance. But no-body expected to hear of his death and no inkling as to his illness had reached the newspapers.

The fatal ILLNESS.

Only at this hour—I p.m.—has it been possible to obtain details in regard to the death of Mr. Parnell. He died at his home, Walsingham Terrace, Brighton, at 11:30 last evening.

His death is said to have been indirectly due to

among the groups who everywhere gathered we discuss the death of the Irish chieftain.

From 8 o'clock this morning up to the present hour the telegraph offices, the office of the Freeman's Journal and that of every other newspaper in the city have swarmed with people of all classes and conditions, eagerly looking for some particulars of the taking off of the great leader. Up to this time, having the property of the more appropresent however, nothing but the mere announcement of the fact and cause of death have been re-

Dispatches from Cork say that the news of the death of Mr. Parnell has caused a panic in that city. So absolutely unexpected was the announcement that at first it was received as a canard, but the confirmation of its truth came quickly crowding upon its heels. The personal and political friends of the dead man are overwhelmed with grief, and those who loudly and holly opposed him in life today maintain a dignified and respectful silence. The death has come so suddenly upon the people of Cork that as yet nothing has been done in the way of formal action in the matter. Meantime the wires between Cork and Dublin and the cable hetween Ireland and England are and the cable between Ireland and England are loaded with dispatches of inquiry and sympathy. Mr. Patrick Martin, a merchant of this city and first vice president of the National League during the domination of Parnell, says that his efforts in behalf of Ireland cannot be forgotten, whatever may be the differences existing regarding his latest acts.

To Parnell belongs the honor of bringing before the civilized world the cause of Ireland, and to Parnell might fairly be awarded also

the credit of winning to the side of Ireland the giant intellect and persistent advocacy of Giadstone. Parnell experienced of late enough of the quality of human pity. It is the earnest hope, Mr. Martin says, of all who con-verse upon the death of Parnell that he may experience to the full the quality of Divine PEELING IN PHILADELPHIA.
